

## Detail of schemes being invested in

- **Greater Manchester STP**

Extra capital investment is required to improve health and care services for the 2.8 million people of Greater Manchester. **£30m - £50m** will be used to help the NHS make improvements to acute and general surgery at Manchester Royal Infirmary, Royal Oldham Hospital Salford Royal and Stepping Hill Hospital in Stockport and Tameside to save more lives, sooner. The changes, approved by the local NHS in June 2015, are expected to save up to 1,500 lives across Greater Manchester over the next five years. **£10m - £30m** will be used to build a new surgical unit and high-acuity support for the 850 or more patients who experience major trauma in the Greater Manchester area each year.

- **West, North and East Cumbria STP**

The WNE Cumbria STP has been awarded capital funding to support massive improvements to health and care services across the area. **£30m - £50m** will be used to improve access to chemo and radiotherapy by establishing a brand new cancer centre, complete with new equipment at Cumberland Infirmary in Carlisle. The new oncology centre will mean 95 per cent of Cumbria patients with suspected cancer will now get a diagnosis within four weeks and, by improving access both 1 year and 5 year cancer survival rates are set to increase.

West Cumberland Hospital will benefit from **£30m - £50m** extra capital investment to refurbish or rebuild parts of the hospital estate to bring it up to date and improve the experience of both patients and staff who work there. Up to **£5m** is going to support the development of eight Integrated Care Communities – local hubs that bring together GPs, social care, community services, mental health services and specialist hospital consultants to support people closer to where they live.

- **Lancashire and South Cumbria STP**

**£10m - £30m** of new funding will be invested across Lancashire and South Cumbria to modernise mental health facilities and improve A&E facilities at two of the area's hospitals.

East Lancashire Hospital will receive **£5m - £10m** to pay for an expansion of A&E and provide two extra clinical rooms. Across Lancashire and South Cumbria, **£5m - £10m** of the new capital funding has been earmarked to be used to modernise mental health inpatient services.

- **South Yorkshire and Bassetlaw STP**

Up to **£5m** has been set aside to support the expansion of hyper-acute stroke services at Sheffield Teaching Hospital and across South Yorkshire. Doncaster and Bassetlaw Teaching Hospitals FT will get up to **£5m** to improve stroke and cancer care by getting a brand new CT scanner and expanding capacity. The new scanner will help speed up diagnosis and treatment for patients across South Yorkshire and Bassetlaw.

- **Leicester, Leicestershire and Rutland STP**

The STP has been given **£30m - £50m** to improve mental health and hospital services for patients across Leicester, Leicestershire and Rutland. The new investment will pay

for the development of a 15 bed inpatient unit at Glenfield General Hospital that will bring specialist mental health provision together with other services so the NHS is better equipped to support more children and young people with severe mental ill-health. University Hospitals of Leicester will benefit from the investment to fund an expansion of intensive care beds.

- **Hereford and Worcestershire STP**

**£10m - £30m** of new investment will improve hospital services for communities across Hereford and Worcestershire. Worcestershire Royal Hospital will benefit from additional investment to upgrade maternity wards and theatres and children's services, as well as money for more general and acute surgery beds. The Alexandra Hospital in Redditch will get extra money to pay for improvements to the elective care centre, endoscopy, children's outpatients and an upgrade in theatres.

- **Derbyshire STP**

**£10m - £30m** will be invested to improve health and care services across Derbyshire. A large share of the money will pay for an expansion to the emergency department at Royal Derby Hospital, creating space for 37 more minor injury beds, 10 emergency bays and additional resus facilities. The extra money will also allow the hospital to redesign space so that mental health assessment, GP care and out of hours services can all be housed in one place. **£5m - £10m** will pay for a new, integrated facility that will bring community services, outpatient clinics, testing and diagnostics and specialist rehab services together in one place.

- **Nottingham and Nottinghamshire STP**

An investment of **£5m - £10m** which includes allocation for the Strelley Health Centre in Nottingham to improve and expand access to primary, community and social care, as well as a new pharmacy. Cotgrave will benefit from up to **£5m** capital award to build a new health and care centre for the 12,000 residents of new homes developed in the area.

- **Mid and South Essex STP**

Mid and South Essex will receive **£5m - £10m** of capital award for a new catheter lab at Essex Cardiothoracic Centre in Basildon that will be able to provide more tests for heart attack and stroke patients, bringing the total number of labs from three to four. The extra catheter lab - an examination room with diagnostic imaging equipment used to visualise the arteries of the heart and the chambers of the heart – will provide more tests, saving hundreds of lives over the next few years. Basildon and Thurrock University Hospitals will get up to **£5m** to relocate outpatient services from hospital site to Basildon town centre, improving access and bringing care closer to communities.

- **Suffolk and North East Essex STP**

North Clacton will get up to **£5m** for a new primary care hub which will house three GP practices, care closer to home services and new renal dialysis unit. For those in West Suffolk, up to **£5m** will fund the relocation of Oakfield GP surgery into Newmarket Community Hospital.

- **Milton Keynes, Bedfordshire and Luton STP**

Up to **£5m** for a new primary care hub at Bedford Hospital to improve GP access for local communities and support urgent care at the hospital's A&E.

- **Norfolk and Waveney STP**

Up to £5m has been awarded to Norfolk and Waveney STP to fund acute mental health beds in West Norfolk.

- **Dorset STP**

Over **£100m** capital funding has been earmarked to support proposed changes in Dorset that will see improvements to A&E and elective care for local communities. In Dorset, the NHS want to bring their hospital services up-to-date by having highly trained consultants available 24 hours, seven days a week in major specialist hospitals. Decisions have yet to be made but proposals recently consulted on could mean the two big acute hospitals – Bournemouth and Poole – focusing on either urgent and emergency care for the most seriously ill patients and life-threatening conditions, or on planned care for non-urgent or routine treatment.

- **Buckinghamshire, Oxfordshire and Berkshire West STP**

Up to **£5m** of capital funding will be used to fund the creation of a Rapid Assessment and Treatment Centre and observation unit at Stoke Mandeville Hospital in Buckinghamshire. This will help A&E doctors and nurses offer patients the right care, in the right place and help meet increasing demand.

- **North East London STP**

Up to **£5m** has been earmarked to fund the redesign of the urgent care centre at King George's Hospital in North East London. It is expected the changes will improve facilities for patients and staff, and support the hospital to improve wait times.
